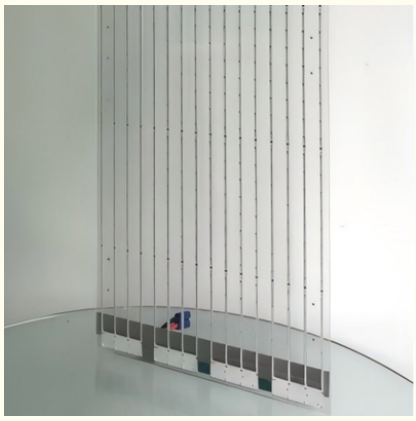
P10 Full Color Film Screen Radiates Quickly Maximum Power 700w for Office Building

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Vegoo
- Certification: CE/ROHS/FCC/CCC
- Model Number: VG-filml-P10
- Minimum Order Quantity: 0.2
- Price: $870-$879
- Packaging Details: Flight case/Wooden case
- Delivery Time: 7-15 days
- Payment Terms: T/T in advance
- Supply Ability: negotiation



Product Specification

- Pixel Pitch: P10
- Transparent Rate: >85%
- Warranty Time: 2 Years
- Brightness: 4500CD
- Cabinet Size: 1000*320mm/1000*640mm
- Lamps Type: SMD2121(Light And Drive IC Integrated In One)
- Highlight: **office building Film screen**, **P10 Full Color Film Screen**, **700w Film screen**

Product Description

Products Description

Our transparent screens combine cutting-edge technology with sleek design, offering crystal-clear visuals without obstructing the view. Perfect for retail displays, exhibitions, and innovative advertising, these screens captivate audiences with stunning transparency and vibrant colors. Easy to install and energy-efficient, they seamlessly blend into any environment, enhancing your presentation with a modern, futuristic touch.

Products Parameters

Screen technical parameters	1	Point Density	23716 points/m²
	2	brightness	500-4,000 nits
	3	Horizontal viewing angle / vertical viewing angle	160 °/160 °
	4	Transmittance	≥65%
	5	Chromaticity uniformity	Within ±0.003 Cx, Cy
	6	Highest contrast	2000:1
	7	Protection level	IP20
	8	Maintenance method	Post-maintenance
System control parameters	1	Signal color processing bits	Red, green, blue ≥ 16 bits each
	2	Drive mode	Constant current drive
	3	Frame rate	60fps high refresh rate, 3D support:120fps
	4	Refresh rate	Normal refresh rate ≤1920HZ High refresh rate ≤3840Hz
	5	Screen color temperature	3200K 9500K adjustable
	6	Dimming	Manual/Automatic/ Programmable
	7	Pixel Correction	Equipped with brightness and color point by point correction
	8	control method	Synchronous control
	9	Control distance	Category 5e twisted pair network cable, optical fiber transmission over 100 meters
	10	Software Interface	Windows XP /7/8/10
	11	Signal input	HDMI, DVI

Product Advantages

High Transparency

Transparent LED displays maintain a high degree of transparency, allowing natural light to pass through and providing a clear view of the background while displaying vibrant content.

Space Efficiency

These screens are lightweight and slim, making them ideal for installations where space is limited. They can be easily integrated into windows and glass walls without obstructing the view.

Energy Efficiency

Transparent LED displays consume less power compared to traditional display solutions, making them a cost-effective and environmentally friendly option for continuous use.

Versatile Applications

Suitable for a wide range of environments, including retail stores, corporate offices, and public spaces, transparent LED displays can be used for advertising, information display, and decorative purposes.

Enhanced Aesthetics

Their modern and sleek design adds a futuristic touch to any setting, enhancing the overall aesthetic appeal and drawing the attention of passersby with eye-catching content.
